

[*File Blacks*]

Emory University

Memorandum

To: Dr. Thomas L. Fernandez

Vice President for Student and Academic Services

Date: December 14, 1970

As per your request, listed below are the permanent full-time members of the faculty and administrative and professional staff and general exempt staff. I have excluded the faculty and staff of the Southside Comprehensive Health Center.

We are beginning to show a gradual increase in the number of black people employed in administrative, professional and executive capacities over what existed two years ago. We still have, however, many organizational units which do not have any exempt black personnel.

Please let me know if you need additional information. Thank you.
