Dear Dr. Atwood,

I hope that your trip was restful and happy for both you and your wife.

My mother sends love and asks to be remembered especially to Mrs. Atwood.

Perhaps we can meet sometime soon and talk about progress in several areas.

You might be interested in the educational program plan ned [[led]] by SGA. From

Rena and a few others I get some picture of what is going on – also through

contact with a few administrators. Please include me in your progress reports

as I am listed in your letter as responsible for a big area. Also I may

have information those in other areas might be able to use. From my office

I sense that we are not going to be prepared for next year if more is not

done soon to meet pressing needs.

See you soon–

Charles
